

Pelagian Crypto-Catholic Dan Corner by Nelson Turner

CORNER, DAN (Cited from A CRITIQUE OF GAIL RIPLINGER'S SCHOLARSHIP AND KJV ONLYISM Evangelical Outreach, 1999.)

“KJV INACCURATE READINGS.” Heading on page 14.

“Again, there is no way to know how many people been misled by the KJV's inaccuracies over the centuries. The truth is the Bible teaches a conditional security for the believer.” Page 40.

“In fact, our old Catholic bible doesn't even provide marginal references back to the Apocrypha, like the 1611 KJV does! (I'm an ex-Catholic.)” Pages 41-42

“Furthermore, how many do you think were deceived into thinking Purgatory and praying for the dead are beliefs and practices from God based on this incredible 1611 KJV error? Do you think the KJV 1611 translators were led by the Holy Ghost to translate the Apocrypha?” Page 42.

“THE KJV, AN EXCELLENT CATHOLIC BIBLE- Besides placing the Apocrypha next to the word of God, the 1611 KJV also has marginal notes scattered throughout the Old and new Testaments that cross reference back to the Apocrypha! Even our old Catholic Bible doesn't do this.” Page 44.

NOTICE THAT DAN CORNER TWICE CALLS WHAT IS OBVIOUSLY THE DOUAY-RHEIMS “OUR OLD CATHOLIC BIBLE.” This coupled with his doctrinal positions that are in line with Jesuit doctrine as espoused at Trent reveal him to still be a Catholic. Born again saved former Catholics I have known for years have all stated they would never speak in such a manner. Corner's Freudian slip is showing here, and it got through all his revisions and corrections, providence blinding him so that the child of God could discern what he is.
